

Guitar for beginners

The 8 week introduction to playing the guitar is aimed at the complete beginner.

Budding musicians will learn to play familiar songs from a wide range of musical styles and get a taste of some of the basic aspects of the instrument.

Lessons will focus on chords, strumming and easy melody playing.

No previous experience or musical knowledge is required to take part.

Those interested will need to bring a guitar, a plectrum, a pen and copy book.
